

## Travax® Content Changes Sample

---

### Travax Content Changes – Apr. 19, 2019

#### Shoreland's *Travax Content Changes*

##### Belize, Indonesia: Malaria Information

The malaria maps and text for Belize and Indonesia have undergone substantive revisions.

##### Destination Name Changes in Travax

The country name **Macedonia** has been replaced by **North Macedonia** in Travax Destinations, Report Builder, and maps.

In addition, the country name **Swaziland** has been replaced by **Eswatini (formerly Swaziland)**. Starting on May 31, 2019, Travax will use simply Eswatini (without "formerly Swaziland").

*Travax Content Changes* notifies subscribers of key changes that have recently been made in Travax content. Typically the items pertain to *Destinations* and *Library* and include malaria, travel immunizations, and *Library* topic changes. A list of additional weekly changes is available on the Travax *What's New* page. Travax content represents decision-relevant, expert synthesis of real-time data reconciled with new and existing available advice from authoritative national and international bodies.
